

MANAGING GREAT INNOVATIONS

Senior UI / UX Designer (m/f/d)

minnosphere combines passion for innovation and digitization. The company was founded in May 2016 and is part of the msg group. Specialists @ minnosphere create and develop innovative software solutions and new business models. Our business partners and clients operate in various industries.

In your role you will:

- Translate user insights and concepts into wireframes and mockups that lead to intuitive user experiences
- Uncover user needs through design research and turn these insights into product and/or service concepts, telling a clear user story
- Take design ownership for all phases of UX and UI work: research, conceptual design, prototyping, detailed design, usability testing, and implementation
- Test design concepts and prototypes with users to validate product experiences

We would like you to:

- Professional experience in UI/UX Design (ideally B2B) of complex applications
Talent in HCI, Interaction Design, Psychology or other relevant field
- Command of qualitative and user-centered design methods including, but not limited to usability studies, user flows, persona creation, customer journeys
- Ability to think critically, adapting the appropriate methods to specific development and ideation stages as well as design questions
- Passion for and experience with B2B products is a plus, as well as the ability to balance the design work with business and strategic requirements
- Great communication skills – fluency in English and German

What we offer:

- An exciting role focused on innovation
- A highly motivated, extremely talented international team
- Flat hierarchies, open communication
- Entrepreneurial working style
- Innovative and inspiring work environment in one of our innovation labs

Excited? Be part of minnosphere and let's shape the future.

Apply now and send your application documentation and curriculum (in German or English) to info@minnosphere.com.
